

LiveFromYou® application on your iPhone®

LiveFromYou is an easy to use mobile and web service that provides the ability to capture and share the stories of your life with family and friends, through leading social networks.

LiveFromYou enables sharing the memories of your life by simplifying the organization of your new and existing pictures, videos, and other media files, whether they are already on your social network profile or any desktop, camera or mobile phone. In addition to the security and privacy benefits of sharing media files through LiveFromYou, LFY allows you to publish, share and interact with your friends in a chronological date and time as the events take place. LiveFromYou also allows for geo-tracking so your friends & family can see what you're doing & where you did it.

I. Downloading LiveFromYou on your iPhone

To add LiveFromYou to your iPhone from the iTunes App Store:

1. Click the App Store icon from the iPhone main menu
 - In **Categories**, LiveFromYou can be found in the “Social Networking” and “Photography” categories, or
 - **Search** for LiveFromYou
2. On the LiveFromYou app description page, click the FREE button and then click the INSTALL button.
3. Enter your iTunes Password and click OK to download.
4. Next you will be prompted: ““Live From You” would like to use your current location” and give the Don't Allow and OK options. Click OK to all for the automatic geo-tagging of your pictures taken on your iPhone.

The next screen you'll see is the account creation page, which is described in the following section. While we recommend that you take this step and create your account now, you can “Skip” this page and see a little about what this application can do before creating your account. However, all of the fun stuff like taking and uploading pictures requires an account.

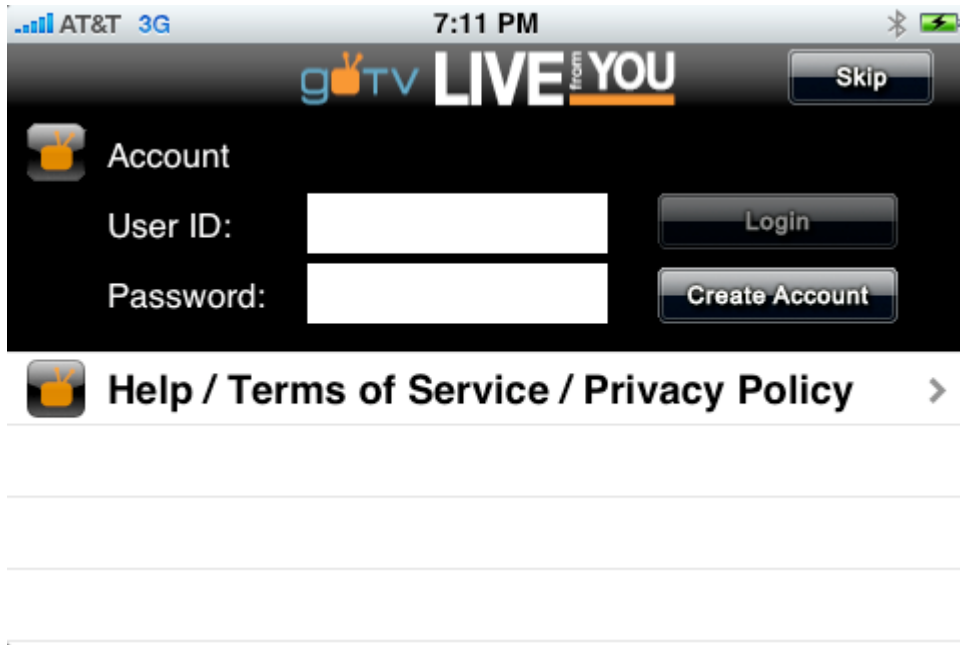

If you skip account creation, you will be able to see the following:

- View Timeline with examples of sample media provided by LiveFromYou.
- View Map with examples of sample media provided by LiveFromYou.
- Read FAQs, Terms of Service and Privacy Policy, in the Account/Settings section.

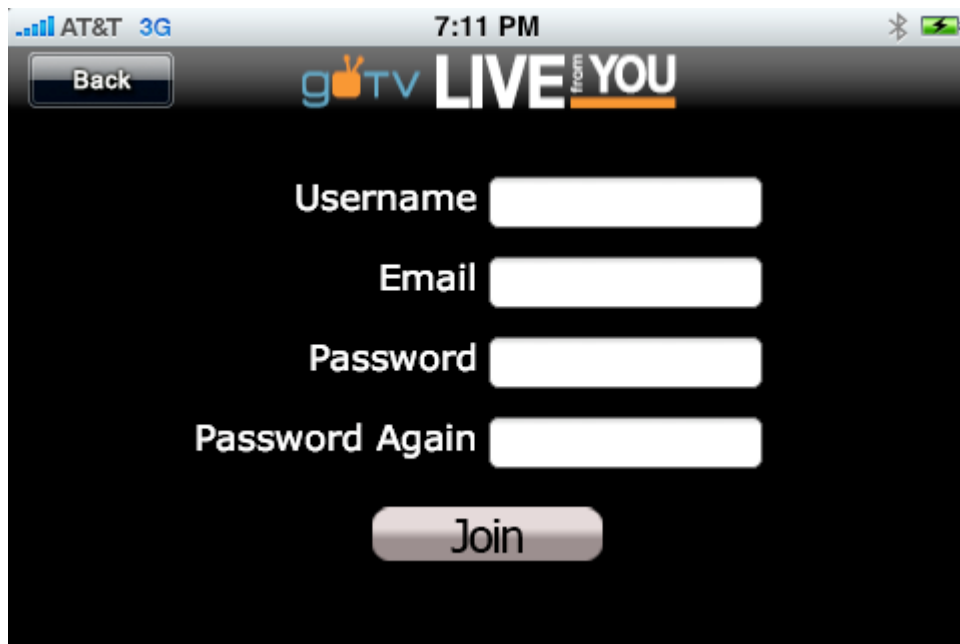

The rest of the great LiveFromYou functionality will be disabled until you create an account.

II. LiveFromYou Account Creation and Login

Creating a LiveFromYou account and logging in to your account is required for uploading media.

1. Click Create Account

2. Fill in fields for Username, Email, Password and Confirm Password
 - Click Join button

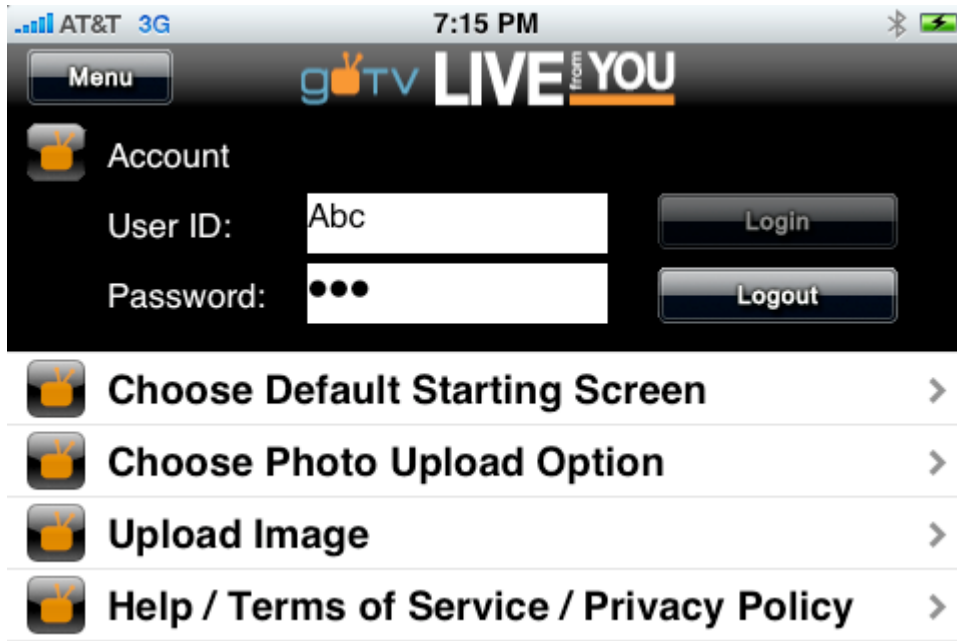

3. Next click “OK” and then “Back” to login to your LiveFromYou account.
4. Login using your username and password from account creation.
5. Click “Login”

III. Set Account Settings

Setting preferences for your LiveFromYou account lets you customize your experience. It is also where you will find the Help, About, Terms of Use and Privacy Policy sections.

1. From LiveFromYou main menu click “Account Settings”
2. Below the account login section there are 4 options described below:
 - Choose Default Start Screen
 - Choose Photo Upload Option
 - Upload Image
 - Help/Terms of Service/Privacy Policy
